

Fellowships

We should like to offer a number of 'Visiting Fellowships' for colleagues from Higher Education Institutions (HEIs) in the UK and overseas who would like to come and work with us and use our facilities.

The Visiting Fellowship Scheme seeks to attract colleagues working in HEIs in the UK and overseas to come and work with staff in one of the three SPLINT sites on aspects of spatial literacy/spatial thinking for a specified period of time so that both parties can enhance their expertise. This might be attractive to:

- A member of staff from outside the UK, who would like to spend all or part of their sabbatical with us on working on a joint project concerned with an aspect of spatial literacy.
- A member of staff from within the UK, who would like to work with us on a joint project concerned with an aspect of spatial literacy.
- A member of staff (including educational developers) at one of our three SPLINT universities who would like to develop a joint project with SPLINT staff.

Application Procedures

The deadline for receipt of applications is **31 July 2008**.

Please visit our website <http://www.le.ac.uk/geography/splint/fellowships.html> for further details or email Janet Carter, SPLINT administrator, jc115@le.ac.uk
